

Author's Guidelines

Editorial policy: The *Dinteria* publishes articles in the field of botany related to Namibia. All contributions must be based on original research, must not be under consideration for publication elsewhere, and should constitute a definite advance in knowledge in that field.

Authors bear sole responsibility for the factual accuracy of their papers. Referees will review submitted papers and on their advice the Editor will accept or reject contributions. All refereeing is strictly confidential. Articles that contain less than 2000 words may be considered for publication as a Short Note, in which case no separate Introduction, Methods, Results and Discussion are necessary. Short Notes must contain References however, and Acknowledgements may be made if necessary.

Presentation: Contributions must be written in English. Authors can (optionally) publish a second abstract in a language of their choice. Submit two clear copies of the manuscript, including all drawings, graphs and photographs. For articles that are processed on a computer, please supply also an electronic copy in New Roman font of the manuscript on diskette, using WORD (6.0 or later) or Rich Text Format (*.rtf). Photographs, figures, drawings and graphs can optionally be submitted in a general graphical form such as Windows Metafiles (*.wmf), GIF (for graphs), JPG or TIF. Please **do not embed** illustrations into the text. Colour plates may be printed, but the author(s) will have to bear the costs.

The layout should conform to the following sequence: Title page with title, author's name(s), address(es) (including, if relevant, an e-mail address), both abstracts, keywords (maximum 8), and then, beginning on a new page, Introduction, Materials and Methods, Results, Discussion, Acknowledgements and References. Tables (each on a separate page), Captions for Figures (grouped together) and the figures should then follow. All pages must be numbered consecutively, including the title page and those containing references, tables and captions for figures. Manuscripts should be submitted to: The Editor: *Dinteria*, c/o Namibia Scientific Society, P.O. Box 67, Windhoek, Namibia. E-mail: nwg@iafrica.com.na, clearly stating that the paper is submitted for publication in *Dinteria*.

References: References in the text should be cited as follows: 'Mendelsohn and Roberts (1974) stated ...' or '... (Mendelsohn & Roberts 1997)', when giving a reference simply as authority for a statement. Use the name of the first author followed by *et al.* when the complete citation involves more than two authors, e.g. 'Schulze *et al.* (1991)'. A list of publications to which reference has been made in the text must be presented alphabetically according to authors' names and

chronologically under each author, with a, b, c, etc. when more than one reference per year from the same author(s) is involved. A personal communication must be confined to the text and not be included in the list of references. In the list, authors' names should be typed in capitals as indicated below.

JANKOWITZ, W.J. 1983. *Die plantekologie van die Waterberg Platopark*. Ph.D. thesis, University of the Orange Free State, Bloemfontein.

MENDELSON, J. & ROBERTS, C. 1997. *An Environmental Profile and Atlas of Caprivi*. Directorate of Environmental Affairs, Namibia.

SCHULZE, E.D., LANGE, O.L. & GEBAUER, G. 1991. Carbon and nitrogen isotope ratios of mistletoes growing on nitrogen and non-nitrogen fixing hosts and on CAM plants in the Namib desert confirm partial heterotrophy. *Oecologia* 88:457-462.

STOCKING, M.A. 1994. Assessing vegetative cover and management effects. In: Lal, R. (ed.), *Soil Erosion Research Methods*, 2nd edition, pp. 211-232. Soil and Water Conservation Society and St. Lucie Press, Akeny / Delray Beach.

Tables: Keep tables to a minimum. The same data should not be duplicated in tables and graphs. Each table must be typed on a separate sheet and be numbered consecutively in order of appearance, using Arabic numerals. Pay attention to the limitations imposed by the size of the printed page (A5).

Illustrations: Please do not embed illustrations in the text, but submit these separately. The rules for numbering are the same as for tables. Photographs must be of a good quality on glossy paper, with clear details and adequate contrast. Please contact the editor if slides are to be reproduced. Drawings, diagrams and graphs should be done in black India ink on good-quality paper or tracing film. An illustration may not exceed twice the linear dimensions desired in the final reproduction. Allow space for the caption when presenting a figure that will occupy a whole page. It is important that lines and symbols be drawn sufficiently boldly to withstand reduction. The size of the lettering on the original must be such that the letters will be about 1.8 mm high after reduction. If the author(s) require a figure to be reproduced without reduction, this is to be clearly indicated. It is, however, recommended that use be made of a scale bar on figures. Write in soft pencil, the name of the author(s) and the figure number, as well as an arrow indicating the top of the figure on the reverse side. Place captions of figures collectively on a separate sheet of paper.

Reprints: *Dinteria* supplies, free of charge to the author(s), 10 reprints of each full-length paper.
